Same-Day Flight Changes

If your plans change on the day of travel, Southwest offers same-day flight change options. 📞 +1/844/565/1867 Same-day confirmed changes allow you to switch to an earlier or later flight on the same day between the same cities. This service requires a fee unless you have elite status or purchased a premium fare. Same-day standby is also available, allowing you to wait for an earlier flight without a confirmed seat. Check availability and fees through the manage reservation tool or at the airport.

Upgrading Your Cabin Class

After booking, you may want to upgrade to a premium cabin for added comfort. 📞 +1/844/565/1867 The manage reservation tool shows available upgrade options including Southwest Comfort+, First Class, and Southwest One where applicable. Upgrades can be purchased outright or confirmed using Medallion Complimentary Upgrades if you are an elite member. Prices for upgrades vary based on route, demand, and how far in advance you upgrade. Sometimes last-minute upgrades offer better value.

Adding or Changing Flight Segments

For multi-city trips, you might need to add or modify flight segments. 📞 +1/844/565/1867 While simple round-trips can be managed online, complex itinerary changes often require calling Southwest customer service. Adding new cities or changing connection points may require rebooking entirely. The agent can help find the best routing and calculate any fare differences. Always have alternative dates and routing preferences ready when calling about complex changes.
